

## EULA / End User License Agreement

THIS IS A LEGAL AGREEMENT. By downloading and/or installing Antwerpen font family software you agree to the following terms:

### 1. Installation, locations, portable devices

This licence is only for the benefit of the users authorised under this licence. Authorised users are permitted to install and use the font software on one (1) portable device such as a notebook or laptop computer and on one (1) desktop or workstation type device that remains at a single location. For example 5 users are authorised to install and use the font software on their five (5) portable devices and their five (5) desktop or workstation type devices in a single location. These computers can be connected to any number of output devices, such as laser printers, ink jet printers, an image setter or a film recorder. The font software may be downloaded to the memory (hard disk or RAM) of the output devices that are customarily used by you for the purposes of having such font software remain resident in the output devices. If you need to install the Font Software on more than the authorized computers permitted by this licence, or if more users need to use the font software, you are required to upgrade to a multiple user licence. You further agree to treat the software as confidential information and exercise reasonable care to avoid unauthorised distribution of the Font Software. If you cannot or do not agree to the terms of this licence, return the software unused to Studio Type / Jo De Baerdemaeker, Gounodstraat 8/31, 2018 Antwerpen, Belgium.

This means that the standard licence allows only a single user to use the fonts. If more users plan to use the fonts, you need to upgrade the licence to cover multiple users.

### 2. Service Bureau

To reproduce a particular document at a commercial printer, or service bureau, you can supply non-editable artwork in a PDF format. If the printer or service bureau needs to install the fonts on their computers they will need to purchase a separate Service Bureau licence.

This means that to output your documents you can either send non-editable PDF files, or your printer / service bureau / designer can get a separate licence at a significant discount.

### 3. Rights reserved

The Font Software and the designs embodied therein are the exclusive property of Studio Type / Jo De Baerdemaeker. This non-exclusive, revocable licence grants you certain limited rights to use the font software only, no permanent or ownership rights are granted as a part of this contract herein. All right, title and interest in and to the font software, the designs of the fonts embodied therein together with the copyrights, trademarks, trade names and service marks associated with the font software are each the exclusive property of Studio Type / Jo De Baerdemaeker.

This means that by buying the licence you only buy the right to use the fonts. The fonts themselves remain the exclusive property of Studio Type / Jo De Baerdemaeker.

#### 4. Modifications, back-up copies

Except as may be otherwise expressly permitted in this contract or by a separate written agreement, you may not modify, adapt, translate, reverse engineer, decompile, disassemble, alter or otherwise copy the Studio Type / Jo De Baerdemaeker font software or the designs embodied therein. You may not modify the fonts in any way.

#### 5. Returning and exchanging fonts

The font software may be returned or exchanged only if defective and will be replaced only when accompanied by a valid sales receipt within four (4) weeks of purchase.

This means that if the fonts don't work, we replace them.

#### 6. Derivative work

Any derivative works created by you which use or are based upon the font software and/or the designs of the fonts, including, but not limited to, software or other electronic works, are considered derivative works under the Law of the Netherlands. Any such derivative works are the exclusive property of Studio Type / Jo De Baerdemaeker and shall be subject to the terms and conditions of this licence. #### 7. Third party use, broadcasting

If you are an advertising agency, acting on behalf of an advertising agency or otherwise acting in a similar capacity or for the benefit of a third party. The font software or a copy thereof will be transmitted to the client or third party, the purchase of a licence for or by your client is required. Depending upon how the Font Software will be used, an additional licence upgrade and/or the purchase of a special licence may be required. A special OEM licence is required to use the Font Software on letter form goods for sale, electronic books, game playing devices, gaming or gambling devices

irrespective of whether the font software itself is embedded into the device or whether it is merely the designs of the fonts that are displayed. If you are using the Font Software in exhibition or display in cinemas, motion pictures, on television or on cable television, or as a part of any works broadcast or transmitted on the Internet, a special broadcasting licence is required and an additional licence fee may be required.

This means that you need a special licence if you plan to embed the fonts in hardware or software, or if you will use the fonts in movies.

#### 8. Embedding

The embedding of the Studio Type / Jo De Baerdemaeker fonts software in PDF documents, Flash documents, and other digital documents is allowed only in a secured, read-only mode, provided that the extraction of the Fonts is prohibited. Notwithstanding any other term of this licence, embedding of the font software in other software or devices or in any other form whatsoever requires the purchase of and shall be governed by a separate OEM licence agreement. This licence does not permit the transmitting of the Font Software over the Internet in font serving or for font replacement by means of technologies such as, but not limited to, EOT, Cufon, sIFR or other technologies that now exist or may be developed in the future. If you wish to use the font software for such purposes, a special web font licence and the purchase of a related service ("TWFS") is required.

This means that you can embed fonts into PDF and Flash files for free, but you must set embedding to prevent font extraction. You can buy a special licence if you plan to embed the fonts in hardware or software. For using fonts on websites, we offer a special licence.

This means that if you violate these terms, this agreement will be cancelled.

#### 11. Transferring the licence
